

MANY ISSUES SHELVED AS CONGRESS QUILTS

NO RECESSION
FORESEEN BY
LOCAL TRENDSMercantile and Industrial
Outlook Bright, Survey
Discloses

There may be cries and warnings of "recession" in America today, but it is hard to anticipate any noticeable decline or falling off of "good times" in Salem.

Contacting The News, a representative group of Salem merchants, industrialists and people in close contact with the business of the city fail to give much indication that things may slip hereabouts soon.

Industrial Outlook Rosy

The over-all picture includes an excellent industrial outlook, with several factories planning expansions within the next six months. Employment supply and demand in industrial plants in the Salem area is as nearly balanced as it ever will be, an employment official said.

In the retail merchants' outlook, things have slackened somewhat. People are becoming "more choosy" regarding materials and prices, but the total spending hasn't decreased any appreciable amount.

A banker reports that his bank has noticed a decline in the purchases of large priced items, such as household appliances, furniture, etc., but the total expenditures even there are well above average, although below the post-war peak reached about a year ago.

A spokesman for one of Salem's largest industrial firms said he can see no decline in industrial employment or sales for six months and very probably much longer. The demand is still extremely high, far higher than we can meet at the present time. Production and full time work will depend on the steel supply, strikes and other contributing factors.

Food Prices High

A Salem grocer has noticed the "usual summer vacation period slump in buying," but sees no "recession" in the real sense of the word. He expresses alarm at the trend of grocery prices, still upward, but has noticed no definite buyer resistance of sizeable import.

He pointed out that despite the upward trend of prices in his field, the margin of profit is not growing but is actually narrowing. Items that formerly sold wholesale for 80 to 90 cents dozen and brought 10 cents each are now costing him 90 to \$1 a dozen and are still selling at the 10 cent price, he said.

Salemites are still "car-happy," however, as local dealers report longer waiting lists now than at any time before.

Used car sales are good and the customers, either through necessity or pure desire, are paying unheard of prices.

Dealers also report that in at least 90 per cent of the cases people are taking their automobiles when delivery is possible. Few cancellations are reported because of the increased prices.

Only a very few plant layoffs are reported, throughout the city, and these or only a week or slightly more until material or production difficulties have been alleviated.

Plant personnel managers report that most of the employees vacationing are doing so away from Salem. The number of "stay-at-homes" during vacation periods is probably smaller this year than ever before, as personnel managers said, indicating that money is available.

3 In Family Among
7 Drowned In Ohio

Authorities counted at least seven drownings among Ohioans today—including three members of the same family—and listed two other deaths of swimmers from electric shock.

Of those who died on outings yesterday, four were Clevelanders, two were from Warren, and the other three were the children of a Hubbard, O., woman.

That woman, who herself almost drowned, was Mrs. Angeline Wanchow, 51 years old yesterday, and her two sons and a daughter sank

to their death before her eyes in Pymatuning lake, just east of the Ohio border in Pennsylvania, near Andover, O.

Small Boat Upsets
Ashtabula County Coroner C. C. Roller said she and her children were thrown into the water when a small motor boat upset. The dead were Cyril Wanchow, 30, his sister, Nancy nine, and a brother, Robert, eight.

The Warren youths—Lawrence Rogers, Jr., 18, and Andrew J. Scopacasa, 17—died near a pier at Geneva-on-the-Lake in Lake Erie water charged with electricity from a short-circuited power line used for small boats, Dr. Roller reported.

Rogers jumped into the water to save Scopacasa when he saw his friend, reportedly a strong swimmer, was in trouble.

Dr. Clyde C. Roller, Ashtabula county coroner, said no water was found in the lungs of either youth and that each was killed by electric shock.

Water Electrified
It was reported that a short circuit in an electric power line used for speed boats, near the pier, had charged the water where the youths went down.

Witnesses said Scopacasa, a good swimmer, cried for help as he swam near the pier. Roger doffed his shirt and trousers and dove in. Other companions saw that Rogers was in trouble almost immediately, and he cried out: "Don't come in, there's electricity in here." They reported that both youths then sank out of sight.

Ashtabula county deputies and Geneva-on-the-Lake employees had the power cut off and the bodies were recovered near the pier.

Rogers is survived by his parents, Mr. and Mrs. Lawrence Rogers, Sr., and two sisters.

Scopacasa, son of Mr. and Mrs. Joseph, also leaves two sisters.

Tried To Retrieve Ball
mond Czarnicki, 30, both of Cleveland, lost their lives in the Vermilion river, Erie county officials said.

Czarnicki jumped in after it, their account went on, and when he failed to come up Czarnicki also plunged in. Relatives said neither could swim.

At Fairport Harbor, William Wiedeman, 20, of Cleveland, drowned while swimming for a rubber raft. A wave swept Michael Kaave, 30, of Cleveland, from a speed boat near Lorain and he drowned, the Coast guard said.

Fishermen rescued a Bucyrus, O., couple and their 11-year-old son yesterday after they had clung to their overturned motor boat for 45 minutes in Lake Erie, near Port Clinton.

The Coast said the three—Mr. and Mrs. Harold J. Himler and their son, John—were fishing from their 12-foot aluminum boat, and that during a change in seats the craft capsized.

They were able to return to their Bucyrus home uninjured, the Coast guard reported.

Text of Hughes Letter
Hughes letter to Sen. Brewster today read:

"Dear Senator Brewster:
"While you are telling, why don't you tell all?
"Why don't you tell about the time you invited me to lunch in your suite at the Mayflower hotel and the proposition you put to me?
"Why don't you tell about the flight Juan Trippe made to the coast to see me, and the two-day conference we had. (April 12 and 13, 1947). Why don't you tell what we were talking about?
"Trippe is president of Pan American Airways system.
"And, incidentally, since you think it is so horrible for anyone to accept my hospitality, why don't you tell about the \$1400 worth of airplane trips which you requested and accepted from me? (Feb. 10 and 11, 1947)."

Boy Is Killed In Tumble

From Car; Mother Injured

COLUMBUS, July 28.—Thomas Stravoff, one-year-old son of Mr. and Mrs. Dimitri Stravoff, was killed yesterday when he tumbled out of his parents' automobile into the path of two on-coming cars.

Police said the boy apparently leaped against the door handle, accidentally opening the door.

Mrs. Stravoff, who leaped from the moving car in a desperate attempt to save the child, was dragged about 200 feet and suffered bruises.

Set To Test World's Heaviest Bomb

(NEA Telephoto)

The flight crew of a specially-modified B-29 Superfortress stands beside the world's heaviest bomb in Wichita, Kan. It will take the 42,000-pound mammoth aloft and test it in the near future. Although this is the heaviest bomb ever built, the War department said its ordinance division is now developing bombs up to 100,000 pounds. Bombs used in World War II weighed no more than 25,000 pounds.

Services Held For
Mrs. Truman Today
Private and Simple

(By Associated Press)

GRANDVIEW, Mo., July 28.—Mrs. Martha Ellen Truman, daughter of a Missouri pioneer farmer and mother of the nation's President, will be buried this afternoon on a shaded knoll in Kansas City—the town where she was born 94 years ago.

The ceremony will be simple and private, as the mother and her devoted son, Harry S. Truman, had previously agreed. The funeral services beginning at 3 p. m., Central Standard time (4 p. m., EST) in Mrs. Truman's plainly furnished living room were for the family alone.

Only three or four cars will follow Mrs. Truman's cortege on its 17-mile trip to Forest Hill cemetery from the little cottage on dusty, unpaved Peland ave.

It was in Grandview the President spent 12 days away from the world's highest office in May because his mother had a sinking spell.

There he was bound Saturday when word of her heart's failure overtook him in the presidential plane.

Forest Hill cemetery made ready grave 8 in block 43 lot 85. In the same lot rests John Anderson Truman, the President's father. The location is the top of a rolling hill, under maples, elms and oaks. John Truman was buried there Nov. 4, 1914.

The Truman sorrow, though more than a family affair, was sheltered from men, state and local police who from the curious by Secret Service blocked roads for two blocks around the frame house.

COUNCIL WILL HEAR BUS LINE PROPOSAL

Members of city council will confer Tuesday evening with Charles H. Scott of Burgettstown, Pa., regarding the prospects of installing a bus system here.

Scott has petitioned council for a bus franchise.

He plans a three-bus service throughout the city from 5 a. m. until midnight each day. Buses would run on a half-hour schedule at a 10-cent fare.

Scott told council committee-men he has three new buses ready to put in use here. He seeks bus stops in the downtown section.

LISBON EAGLES CLUB LOOTED SECOND TIME

LISBON, July 28.—For the second time in several months the Eagles lodge home here was broken into and robbed.

About \$40 in cash, 26 cartons of cigarettes, 17 bottles of liquor and 30 boxes of candy and chewing gum were stolen, police said.

The thieves entered through a door by using a screw driver and wrecking bar, it was reported.

Several months ago burglars entered the place and looted the safe of \$700.

Cover Rough Road
In First Session

WASHINGTON, July 28.—Sign posts pointing toward teamwork with the White House on world affairs, slugging matches on domestic problems and hot 1948 election issues stand out along the rough road the 80th congress traveled to its own half-way mark.

The first session crashed to a close in Sunday's early hours. Adjournment until January—unless a class of a raucous, roaring political scrap in the senate and a back-slapping, rollicking songfest in the house.

Weary members now are beating a path back home to find out what the people think of this first "streamlined" congress, this first Republican-controlled congress in a decade and a half.

The grass roots reaction is important. Top issues already are shaping up for next year's election—eering for a president, all 435 house members and 32 of the 96 senators. For instance:

There are taxes and labor, the high cost of living and the high cost of government.

And there are enough legislative leftovers for the next session to concoct a sizeable dish of political controversies.

Held-Over Issues

Held on the hook until next winter were such measures as universal military training, long-range housing, military cooperation with Latin America, a minimum wage boost for the lowest paid interstate workers and loyalty checks on government workers.

It was a political battle royal in the senate that kept congress on the job on a Sabbath for the first time since 1929.

Democrats had succeeded in blocking a Republican bid for a full-scale investigation into Attorney General Clark's handling of vote fraud charges in Kansas City.

Sen. Brewster (R-Me.) tried to get even by preventing approval of the nomination of Philip B. Perlman of Baltimore to be solicitor general, a top-rank spot under Clark.

Temper was raw and faces flushed after Sen. Ferguson (R-Mich.) complained that Democrats had filibustered against the vote fraud inquiry and Sen. Connally (D-Tex.) came back with an angry reply. Sen. Vandenberg (R-Mich.), as presiding officer, at one point ordered Connally to "take his seat."

Brewster finally gave up. The senate confirmed Perlman 58 to 21 and adjourned at 3:49 a. m. (2:49 a. m. EST).

End With Songfest
In the house, members had finished a final fling of Republican-Democratic bickering over economy around 9 p. m. Saturday.

So, arms around shoulders, they gave up to close harmony—the of the barbershop variety. They tuned up on old favorites, like "Home Sweet Home." Shortly after midnight they voted to go there.

Back at the cross roads there are such ready-made political issues as:

1. TAXES. Congress voted twice to trim income taxes \$4,000,000,000. President Truman vetoed both bills. The vetoes stuck. The bills died.

2. LABOR. Congress passed a bill to make unions liable to punishment for many things never before penalized. Organized labor and the President denounced it. Congress made the bill a law over a veto.

3. SPENDING. Republicans and Democrats squabbled all through the session about trimming government expenses.

Mr. Truman asked last January for some \$37,500,000,000 to run the government in the year that began July 1.

The house decided to whack \$6,000,000,000 off the total. The senate figured \$4,500,000,000 would be a fair cut.

4 MAHONING SCHOOL LEVIES CONSIDERED

At least four Mahoning county school districts, Lowellville, Canfield, North Lima and Greenford will place bond issues or operating levies on the November ballots, Edward A. Saltzman, county superintendent of schools, said today.

Lowellville seeks \$350,000 for improvement of present school buildings. Canfield asks 4 mills for operating funds. If approved, the five-year levy would help increase teachers' pay.

North Lima will ask both a \$15,000 bond issue and renewal of a three-mill operating levy. The bond issue funds would be used to buy a former church property from which a vocational school could be built.

Greenford asks renewal of a two-mill operating levy and in addition, a new three-mill operating levy, or a total of five, the latter to be used in meeting increased maintenance and salary increases.

Anne Straw

Will Search Lake
For Missing Heiress

(By Associated Press)

HOLDERNESSE, N. H., July 28.—Searchers for Anne Straw, missing 20-year-old Manchester heiress, called a former navy diver to scour the bottom of Little Squam lake today after grappling irons hooked what appeared to be pieces of women's clothing.

State Police Sergeant Stuart Currier said investigators still were operating on a theory the attractive Smith college senior may have drowned.

State police said they sighted what appeared to be a clothed object on the bottom of the lake about 300 yards off shore from where the Straw girl's one-piece white bathing suit and a flashlight were found.

Miss Straw, adopted daughter of a millionaire Manchester N. H., banker, disappeared virtually on the eve of her scheduled departure for a month's vacation at a Wyoming dude ranch.

Shaw Is 91

George Bernard Shaw is getting touchy as an old maid about his age, but he's only 91. Each year he huffs and puffs in mock exasperation when well-wishers congratulate him. As the great iconoclast himself pointed out on an anniversary some years ago, why should anyone be congratulated for surviving another year? It requires no great skill; toads, sloths and other stupid creatures do it.

Through the years, Shaw has made some statements which seemed silly, and Americans didn't like it when he addressed them as "dear old boobies." Nevertheless, his hatred of sham, pretentious respectability and irrational social cleavages have resulted in powerful plays for the stages of the world. Many of them remain today as fine examples of the playwright's art and their messages still are pertinent.

Shaw being what he is, no expression of hope for his survival will be made here. He wouldn't approve.

Secretary Forrestal

Appointment of James V. Forrestal as secretary of defense is a wise move. As navy enlisted man and aviator in World War I, reservist between wars and wartime secretary of the navy, Forrestal has the necessary background for this vitally important post. His navy record should help allay the fears of naval officers who have steadfastly opposed unification.

It isn't an easy assignment the new secretary undertakes. There will be problems at every turning, precedents to be broken, policies to be established. While the services are theoretically unified, actually there probably will be inter-service bickering as never before, with the air corps a new entity to complicate matters. Forrestal will need every bit of his tact, his military and naval knowledge and his authority as a cabinet member to get the new national defense establishment operating on an even keel.

The Lincoln Papers

Apparently the newly-revealed Lincoln papers will disclose nothing of a sensational nature about the nation's 16th president, concerning whom volume upon volume has been written. But they will throw new light on his daily life, and the written emendations to documents will show scholars the workings of his mind.

No man in our history has about his memory such a collection of legend and fact, and where one begins and the other ends always will be open to dispute. His wisdom, his compassion, his wit, the great drama in which he played the leading role, the unhappiness of his personal life, his tragic death—all have combined to make Lincoln one of democracy's great heroes, albeit an enigmatic one.

The words of Disraeli's memorial address before Commons in 1865 perhaps sum up Lincoln's lasting appeal: "In the character of Lincoln, and even in the accessories of his last moments, there is something so homely and so innocent that it takes the question, as it were, out of all the pomp of history and the ceremonial of diplomacy—it touches the heart of nations and appeals to the domestic sentiment of mankind."

The Highest Tribute

Further testimony to the quality of the job Gen. MacArthur is doing in Japan comes from a World Federation of Trade Unions delegation which says he has "performed a marvelous task in revitalizing Japan despite that nation's perilous trade situation."

Overruled by the War Department on forbidding the delegation to visit Japan, MacArthur nevertheless showed it every courtesy, it reported. Particularly commended were his removal of restrictions on political, civil and religious liberties; encouragement of labor unions; laws safeguarding collective bargaining and organizing rights; the abolition of thought-control laws, and the release of 300,000 political prisoners.

This is high tribute indeed. It is, in fact, the highest tribute when one considers that the delegation included a Russian who concurred in the report.

Don't Egg Them On

In the last-minute glut of bills in the congressional hopper was a resolution calling for a special postage stamp commemorating the 100th anniversary of the first American poultry show. No word has come through on this measure, suggested by the New Haven, Conn., Cackle & Crow Club, so presumably it was lost in the shuffle.

Even those who harbor the friendliest feelings toward chickens might say this was carrying the commemorative stamp rack—beg pardon business too far. If Postoffice Department engravers came through with a nice design showing a Buff-Orpington rampant on a field of fried eggs, it would just be egging other bird interests on.

Turkey farmers would demand a stamp. Pigeon fanciers would feel slighted. Squab growers would point out the sterling characteristics of their bird. And the National Society for the Preservation of the Trumpeter Swan would give Congress the bird.

A Welcome Sign

Carpenters in Washington state have in their contracts an escalator clause providing for a 13-cents-an-hour increase, but they have decided to pass up the increase. Construction work in Washington is so expensive that building trades work isn't plentiful and the carpenters believe another pay increase would cut their work still further.

This departure from the all-the-traffic-will-bear school of labor bargaining is a welcome sign. It's an indication the idea is getting across that there has to be a limit to wage increases somewhere if the inflation spiral is to be halted. Wages in the building trades could go so high that those in it would have no one but themselves to build houses for and even they couldn't afford it.

THE sidereal indications are for an exceptional opportunity for forging ahead, with expansion and enterprise, to the goal of heart's desires, in which versatility, sagacity and a quick grasp of existing openings figure, particularly in collaboration with those quite as shrewd, efficient and ambitious.

New agreements, definite change in tactics and policies are in order, although there may be sudden developments or surprises, to be met with adroit but rational procedure and skill.

Those whose birthday it is may find themselves in a period of exciting and aggressive action, in an effort to put over important deals or programs, in which the objectives are built on exceptional ingenuity, acumen, foresight and eager cooperation of every shrewd and ambitious partners.

Sudden breaks and quick grasp of them are shown, but any attempt at irregular or erratic moves, based on impulse or emotion rather than logic might precipitate dangerous crises. Keep in line, aiming at sound goals.

GUARDING YOUR HEALTH

Don't Disregard a Knee Pain

By HERMAN N. BUNDESEN, M. D.
IT is not at all uncommon for athletes to come to the physician's office complaining of a "trick knee" or for a patient to say, "Doctor, my knee goes out of joint."

These people have what is known as an internal derangement of the knee joint, and most often this derangement consists of either a tear in the cartilage between the bones and the joint, or a bit of material loose in the joint.

The symptoms of these two disorders usually consist of pain, locking or catching of the joint, or swelling. It may be that only one of these symptoms will show up but in most instances all three will be present together.

Careful Examination

If a patient complains of some trouble with the joint, he should of course have a careful examination. He is allowed to walk so that the doctor can observe whether or not there is swelling of the joint or any wasting of the large muscles of the thigh.

Following this examination, an X-ray of the joint is taken. The X-ray will not necessarily show what disturbance is present, but it is helpful in the diagnosis.

For example, a tear of the cartilage and injury to the soft tissue are not often visible in the X-ray. On the other hand, if there is calcium or lime deposit or a loose piece of bone, or a break in the bone, it will show in the X-ray plate.

Cause of Derangements

According to Dr. Mark B. Coventry of the Mayo Clinic, the main cause of derangement of the knee joint is a weakness of the large muscle in the thigh known as the quadriceps femoris. A complete cure cannot be brought about unless this muscle is brought back to normal. This often requires a systematic program of exercises.

In the case of a loose body in the joint or a tear in the cartilage, operative treatment is often necessary to bring about a cure. Leaving a loose bit of material in the joint will result in injury to the cartilage, and this may cause permanent disability.

Whenever trouble with the knee joint occurs, immediate study by an orthopedic specialist would appear advisable. When the cause of the trouble is found, the most suitable type of treatment can be tried out.

Letters to Dr. Bundesen should be addressed in care of 235 E. 4th St., New York City.

"A Local Concern Made Up of Your Friends and Neighbors"

Zing, comes the swing to your sweetheart

How's that Buick sweetheart of yours? Still giving out with that eager Fireball power surge at a toe-touch? Still answering every light finger-touch on the wheel?

Most likely you'll answer, "It's doing very nicely, thank you." But years have a way of whittling away at performance—sometimes so slowly you don't notice it.

So you can be in for a whopping surprise.

Just wheel your car into our shop and treat it to some real Buick

care. The kind that comes from men who are truly fond of Buicks — who know what they can do and like to bring out all their oomph and go.

Let these men of ours test and tune your Buick with their special Buick tools. Let them replace anything that's worn with the right Buick-engineered part. Then, ZING, back comes the swing to your sweetheart.

Job for job, Buick car care costs no more than ordinary service. So, what's to lose? Come in to us whether it's for a tune-up, major or minor repair or regular lubrication. Your car rates it.

GEOMETRY? Ugh! But here it means Extra Comfort

Buicks take turns without swaying. This means more comfort and less fatigue every mile you travel. Credit that to the geometry of Buick front-wheel suspension.

The wheels are designed to bank slightly on curves—the inside wheel turns a degree or two sharper than the outside one. And they're hung at an angle that lets them give slightly to cushion road shocks.

So good Buick front-wheel service is a job for men who know Buick front-wheel action — who have Buick-approved checking equipment—who have at hand any needed Buick-engineered parts.

Another example of why Buick care keeps Buicks best. Whether it's for wheel alignment or any other attention, bring your car to us.

Hughes Plane Probe Unfolds Party Stories

BY FREDERICK C. OTTMAN

United Press Correspondent

WASHINGTON, July 28.—When I left Hollywood I thought I was all through writing pieces about blonds admiring the moon through the portholes of Errol Flynn's yacht. And about beautiful red-heads studying Shakespeare under tutelage of Charlie Chaplin.

Now it's brunettes with curves more pronounced than that of the fuselage of the 600-passenger airplane of Howard Hughes, skimming through the water (the lovelies, not the plane) in flesh-colored bathing suits for the edification of government big-wigs.

Only difference in today's story about the senate's inquiry into the \$30,000,000 plus that Hughes got from the government to build airplanes and the trials I used to cover is that the scene is Washington instead of Hollywood. Even so a fellow has to look sharp to realize he's in the senate caucus room and not in Los Angeles' skyscraper courthouse.

There's the sworn evidence of champagne parties in a mansion on Doheny drive in the hills high above Hollywood, the \$125 fees to gals for going to dinner with hot-shots, the tete-a-tetes in the plush-lined restaurants.

One of these is Romanoff's in Beverly Hills, operated by the phoney Russian nobleman, Prince Mike (nee Harry Ferguson) Romanoff. And many an item I had to write about the mustachioed Mike. One member of the cast of characters, even, I remember from the trial of Errol Flynn: His old pal, Johnny Meyer.

When I knew Johnny he was a portly young man with thinning hair, who had his desk in the War-

ner brothers publicity department. Johnny knew everybody in Hollywood. He never seemed to function as a press agent, except on studio junkets for movie premieres. That was when Johnny shined. He herded the accompanying starlets. Saw that they had their pictures taken with the dignitaries. Stuff like that.

Johnny was a character witness for Flynn at the latter's trial on charges of monkey-business with an 18-year-old girl aboard his boat. (Flynn was acquitted.) After I left Hollywood for what I thought would be a more dignified job in Washington, Johnny moved over to Howard Hughes' movie company in a similar capacity.

Now it's turns out that Johnny came here a while back to give secret testimony to the senate war investigations committee about the entertainments he provided for such people as Elliott Roosevelt; Faye Emerson, the Warner brothers' actress who became Elliott's wife; Gov. Mon Wallgren of Washington, and Cap Krug, the secretary of the interior.

Having turned his fabulous expense accounts over to Senators Owen Brewster, Homer Ferguson and Co., Johnny found urgent business about as far elsewhere as he could get. He reportedly went to

South America and last was in Patagonia, the southernmost tip of the continent, where he presumably is wearing a fur cap against the July blizzards. Another report had him in Montreal.

So Krug claims he never ate \$100 dinners with Johnny; that the latter is a master of the swindle-sheet. Gov. Wallgren laughs off the parties. Young Roosevelt hasn't said anything yet. Hughes, the man who discovered Jean Harlow (and whose previous press agent, Linc Quarberg, christened her the platinum blonde) says he has a right to entertain his friends.

And that brings us to Miss Peggy Cook, whose bathing suit portraits lately have been sizzling the newspapers. I seem to have met her somewhere in my devious past, but I can't quite place her. By the time the senators have learned how come the government handed the millions to Hughes, I imagine my memory will have been well refreshed.

Hold everything, Hollywood. Roll 'em, senators. Here we go again.

Cleveland 'Orgy' Leaves One Dead and 27 Injured

CLEVELAND, July 28—Cleveland's "most violent period" in years was at an end today with one person dead, six persons in critical condition and 27 others wounded.

Police listed the dead man as Bernard J. Trimble, 25, fatally stabbed. The shootings, stabbings and assaults took place in the Cedar-Central-Southern area and were described as an "orgy" by Detective Lt. Peter J. Kelle. He said they took place "everywhere."

Williams and Walker Change Picture In Major Loop Races

Firing Respective Clubs To Pennant Dashes, May Be Cause Of Tight Finish

BY JOE REICHLER
Associated Press Sports Writer

The pennant picture in the major leagues has taken on a new aspect in recent days all because of a couple of real professionals—Ted Williams and Dixie Walker.

Only a week ago experts were predicting a New York Yankee rout in the American league flag race while forecasting another nerve-racking down-to-the-wire finish in the National.

The Yankees were 12½ games ahead of the Boston Red Sox while the Brooklyn Dodgers were only two and a half in front of the Boston Braves and New York Giants.

But today, the Red Sox, led by Williams, once again the "Terrible Teddy" of the 1941 and '42 seasons, have cut three full games off the Yankees' lead and now trail by nine and a half games.

The Dodgers, with Walker hitting with the same old gusto that established him as the "people's choice" in Flatbush, have opened up a seven game bulge over the second place St. Louis Cardinals.

Williams, stymied by the assorted shifts set up against his left handed pull hitting, finally broke through the unorthodox defense with a tremendous power display that enabled him to raise his early July average of .297 to .330. During the past three weeks, Ted has been belting at a 420 clip.

Walker bettered his July 8 mark of .276 to an even .300 in three weeks.

Dixie drove in three runs yesterday to help the Dodgers sweep both ends of a double header from the Pirates in Pittsburgh 8-4 and 11-4, and extended their latest winning streak to nine.

The Red Sox took two from the St. Louis Browns in Boston, 4-3 and 12-2. Tex Hughson and Dave Ferriss were the winning pitchers.

The Yankees lost a full game from their lead when they were held to a split in their double header with the Chicago White Sox. After Bobo Newsom had won his fourth straight game in a Yankee uniform by pitching a 7-4 win, the White Sox came back to win the nightcap, 5-4.

The Cardinals lost a game and a half to the Dodgers when the Braves behind the seven-hit pitching of Johnny Sain, handed them a 10-3 lacing. The Braves pounded Harry Brecheen and four other pitchers for 18 blows, including seven doubles and Holmes' home run.

The Giants staged a 16-hit attack, including Bobby Thomson's 19th home run, to defeat the Chicago Cubs 12-6. The Cubs used six pitchers.

Oscar Judd won his first game of the season as the Philadelphia Phillies divided a double header with the Reds in Cincinnati. After Kent Peterson had pitched the Reds to a 5-1 win in the first game, Judd outlasted three Redleg hurlers to give the Phillies a 6-4 nightcap win.

Third place Detroit lost an opportunity to gain on the Yankees when they were held to a split by the Athletics in Philadelphia, the A's coming back to win the second game 5-0 after Detroit had won the opener 5-1.

Manager Lou Boudreau drove in both Cleveland runs to give the Indians a 2-1 victory over the Senators in Washington. Boudreau made two of the Indians' five hits against Early Wynn.

The victory for Tolerton advanced him into a Saturday match with Mike Fritzman. He promptly continued his hot streak and defeated Fritzman four and two with a 91 to Mike's 87.

Fritzman has a 13 handicap, Mansfield 15. Ralph Long and Bud "Bullet" Schaefer had to postpone their President's cup match Sunday on the fourth hole.

SALEM POLO CLUB LOSES THRILLER	W.	L.	Pct.	G. B.
After the long 300-mile haul to Harrisburg, Pa., the Salem ponies and riders lacked the horsepower to win from the strong Keystone team but turned in a performance that Salemites could be proud of.				
Confused by the terrific drives of nationally-rated Don Hench and Bob Fraunfelder, Salem trailed by two goals at the end of the first period.				
Miller scored again in the second for Harrisburg but as Salem began to get the measure of the long field Lewis took a pass from Pidgeon and carried the ball to a fast goal. Lewis repeated with the same action bringing the score to 3-2.				
By halftime two long shots through the uprights gave Harrisburg a three goal lead.				
An odd situation developed in the fourth chukker when Salem pushed the ball directly on the goal line. The ball was driven back into the playing field by Hench and while two of the Salem players contested the goal, Harrisburg shot the ball down the field to their goal to score. Their goal was allowed and this decision cost Salem the two goals.				

AMVETS VICTORIOUS In 12-8 Slugfest	W.	L.	Pct.	G. B.
Salem's Amvets won a top-sloped contest 12-8 at Centennial park Sunday afternoon, romping merrily over the Campbell Fox Hole club.				
Salem was red hot at the plate, Bob Miller hitting a home run and a triple, Kirby Laughlin, Dempsey Balsey and Scullion cracking out triples while Laughlin smacked a pair of doubles.

enough of a slash. They never did get together and split the difference—even though they were supposed to under the 1946 reorganization law which supposedly streamlined congress.

Budget Nicked Somewhat
Congress did make some big snicks in the budget. But right into the closing hours there were arguments about how big. The highest Republican estimate was \$4,995,000,000, the lowest Democratic calculation, "in the neighborhood" of \$4,000,000,000.

Records of the house appropriations committee show:
Mr. Truman wanted \$37,640,551.555. The house cut \$3,446,971,525. The senate cut \$2,312,833,545, and what they finally agreed on was \$34,863,441,360 or a reduction of \$2,777,110,195.

4. LIVING COSTS. The lawmakers heard plenty and said plenty about high prices. They didn't do much about them except:
Continue rent controls until next March 1, with permission for landlords to boost rents 15 per cent in exchange for leases running through all of 1948.

wide assortment of others, dozens of senators and representatives won't be stay-at-homes long.

Tightly as it hung on to the strings, congress dipped into the public pocketbook for hundreds of thousands of dollars to send committees and subcommittees trekking all over this country and a good part of the globe.

A special committee, for instance, will examine operations of United States foreign policy abroad. Another special committee, with some outsiders on it, will see what can be done about improving the executive end of the government, the scores of agencies and departments.

Congress made a start toward changes when it approved and President Truman signed a bill uniting the Army, Navy and Air Forces in a single cabinet department of defense.

Mr. Truman got the nomination of James V. Forrestal under the wire to be the new secretary of defense.

Elser Frees Woman Who Visited Escaped Convict

CLEVELAND, July 23.—A 42-year-old Cleveland woman was free today after Mahoning County Sheriff Ralph Elser questioned her in connection with the Friday escape of three prisoners from the Mahoning county jail.

Sheriff Elser said the woman had visited Mathew Senich shortly before he and Joseph Giordano, both of Cleveland, broke out of the jail with Arthur McCann, of Youngstown.

The Cleveland pair had been convicted of being habitual criminals and faced a life imprisonment sentence. It is automatic for such convictions but they had not been handed down in Columbiana county common pleas court, where they were tried.
